B.Tech (Civil Engineering)

Projects

E-commerce Website

- An application that gives users the option to see different products and add them to the cart.
- Users need to log in to access their cart and users can see the product details as well.
- Frontend:HTML,CSS,JS ,React JS
- Used firebase for authentication and real time data for storage.

Swiggy clone

- Used Swiggy live api to fetch all the data through CORS and also Redux toolkit,Parcel bundler ,React router, TailwindCSS libraries to make it aesthetic,responsive and functional.
- Here users can search restaurants, view their info and menu cards. Also users can add or remove items from cart.
- This is completely responsive and the React testing library with jest is used for unit testing and integration testing.

Skills

Programming Language
Javascript,Python,C++

Tools & Framework
React, Express, Node, MongoDB, MySql, TailwindCss, Html, Css

Areas of Interests
Data Structure , Algorithms

Soft skills
Time management, Adaptability, Problem-solving, Teamwork.

Certifications

"Namaste React" from zero to hero by "Akshay Saini"   03/2023 – 04/2023
Basics of C++ with Data Structures and Algorithms by coding ninja   08/2021 – 02/2022
